ROLLING your own cigarettes with Prince Albert is just about as joyous a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blessed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

## MOUSTACHES CAUSE STRIKE

(Correspondence of Associated Press)  
PARIS, Oct. 9.—Walters in seven or eight of the largest cafes on the Paris boulevards have been stirred to angry protest by orders to shave their moustaches or quit.

One of the bitterest grievances the waiters had when they went on strike last April was the edict of the employers to the effect that waiters must sacrifice their moustaches. The waiters triumphed and the employers agreed they should be permitted to adorn their visages as they pleased. Now an attempt to revive the ban on moustaches has caused their indignation.

The waiters are sufficiently humiliated to have to earn their living by extending their hands to receive what often proves to be a ridiculous tip, without being forced to forego one of the privileges of manhood, said the secretary of the union. "Really the waiters know little about psychology. Should they maintain this iniquitous measure destined solely to give their staff a servile appearance toward the customer, they are picking out a poor time for it. Whether French publishers or in the hope of appeasing original customers choose to make their faces as gloomy and depilated as that of the Americans or aim to copy the look of the American picture actor, it is their business. We must insist that the waiters enter into the time of the strike by protesting that the moustache has all been in vogue in France and to suppress it is an indignity and a disgrace to the morale, value and personality of the waiter."

Of course, the world is in the air, and a moustache will come down all right. Civilization is not a failure.

## ALBANIANS ASK U. S. MANDATE AGAINST ITALY

(Correspondence of Associated Press)

TIRANA, Albania, Oct. 5.—Continued appeals are being made by the Albanians for the United States to assume a mandate for Albania. The Albanians have an amazing confidence in America. Scarcely a week goes by in which some local Albanian society or group of patriots does not present a petition addressed to the Americans appealing to President Wilson to intervene on behalf of their country.

The Italian protectorate is in operation but most Albanians profess a distinct dislike for the Italians, saying their desire is merely to exploit the country and to retain a strategic foothold in the Balkans. Some of them say they fared better and the country progressed more under the Austrians. American observers say the Italians have brought great material and moral good to the country and have stabilized things in an effective way.

The country is extremely primitive and there are continual internal disorders. Railroads or telegraphs do not exist, many of the most ordinary conveniences of life are wanting. Sanitation is almost unknown, schools and churches are few in number and altogether the country is extremely backward. Except for the southern part which is fairly fertile, it is a barren waste of rocks and countless hills and mountains.

The women do all the work. They are veritable beasts of burden. Indeed they compete with the ponies and donkeys as pack carriers, but are considered by the men as valuable because they cannot bear up under such heavy loads. In the frequent sale of young women for wives, the price paid often is not as high as that given for a good horse. The severe life among the women shows itself in premature old age and in many forms of serious physical disability. Fifteen per cent of the mothers die at childbirth.

The men sit around coffee houses, discussing politics, or attend to the business of repelling, by gun or sword the frequent Serbian or Montenegrin invaders. The hostility to the Serbs and Montenegrins never ceases. Fights, pistol duels and renderings of daily occurrences. The Albanian, once he believes himself or relatives wronged, never rests until complete and bloody vengeance is secured.

Every ocean has a United States ship sailing for some port worth seeing.

## Announcing the Re-creation of ANHEUSER-BUSCH'S FAMOUS Budweiser

IT is the fixed policy of Anheuser-Busch to comply with every provision of public laws and regulations. That policy will be adhered to in the future as in the past. In view of the Act of Congress, effective October 29, 1919, we feel that our many friends and customers have the right to know how the Anheuser-Busch industrial plants will be utilized.

Our greater development plans include, among other new products, an additional cereal beverage to which we shall apply our well-known trade-name Budweiser. This beverage will be manufactured, in every detail, according to our original Budweiser process, and de-alcoholized to conform to Federal law. It will possess the genuine Budweiser flavor and quality.

Budweiser, re-created, will be manufactured from the choicest, most wholesome and nutritious cereals—and hops, noted for their tonic effects. It will be fully and maturely lagered, put up in sterilized, hermetically sealed, 12-ounce brown bottles, and pasteurized to insure its permanent purity and quality.

We guarantee that this Budweiser is bacteria free, will keep in any climate, and is healthful and nutritious.

We shall be ready to begin shipments by January 1, 1920.

Budweiser is manufactured and bottled exclusively at the plant of
